What Is a CCBHC?

A **Certified Community Behavioral Health Clinic (CCBHC)** is a specially-designated clinic that provides an integrated, comprehensive range of mental health and substance use services. CCBHCs serve anyone who walks through the door, regardless of their diagnosis and insurance status.

CCBHCs provide access to mental health & substance use care much faster than the national average wait time of 49 days, with the vast majority offering **access within a week or less**. They also provide access to certain forms of substance use disorder treatment at vastly higher rates than non-CCBHCs, with 82% of CCBHCs offering one or more forms of medication assisted treatment, compared to only 56% of substance use clinics nationwide.

People Who Receive Care at CCBHCs Experience:

72%

Reduction in Hospitalization

40.7%

Reduction in Homelessness

60.3%

Less Time in Jails

CCBHCs are changing the behavioral health care landscape, proving that when evidence-based clinical care is supported with effective financing, clinics can dramatically increase access to care and provide more comprehensive and lifesaving services to anyone in need of care.
